

Before and After Sorting

Before and after a force

1 Take a before photo

We photograph the object first.

2 Push or pull

We change its shape with a force.

3 Take an after photo

We photograph the new shape.

4 Sort into columns

We put before and after in a table.

TEACHER TALK - BEFORE AND AFTER

Use digital photos to show how pushes and pulls change the shape of an object, like squashing clay. Sort images into before and after columns.
