

Picture Graphs of Growth

Name: _____

Date: _____

WORKED EXAMPLE

We use pictographs with drawings or digital photographs, and tables of measurements, to show patterns in how a plant grows over time. The graph helps us see it getting taller.

Q1

Circle ways to show growth: pictograph, photos, a table, a joke.

Q2

Tick one: A growth graph shows a plant getting taller [] or smaller [].

Q3

Fill the gap: We take a _____ each day to show the plant grow.

Q4

Match: day 1, day 3, day 5 -- tallest, small, taller.

Q5

Draw a pictograph of a plant growing over three days.

Q6

Watch a plant at home for a few days. Draw how it changed.

Q7 CHALLENGE

Draw or write how a plant looked on day 1 and day 5.
Day 1: _____ Day 5: _____
