

Tracking the Weather

Name: _____

Date: _____

WORKED EXAMPLE

We use drawings or digital photographs to record changes in the weather over a series of days or weeks. A weather chart helps us see how the weather changes over time.

Q1

Circle ways to record weather: draw it, photograph it, chart it, ignore it.

Q2

Tick one: A weather chart shows weather over time [] or all in one day [].

Q3

Fill the gap: We record the weather over a series of _____.

Q4

Match: sunny, rainy, windy -- umbrella, kite, sun hat.

Q5

Draw a three-day weather chart with a picture for each day.

Q6

Record the weather at home for three days. Bring your chart to share.

Q7 CHALLENGE

Draw the weather today. Write if you think tomorrow will be the same.

Today: _____ Tomorrow: _____
