

Use and Influence of Science

Discovering how people use science every day — caring for living things, our environment, and making predictions.

Australian Curriculum v9.0 • Year 1

What we'll explore

1 Caring for plants

How people watch what plants need and help them grow.

2 Caring for animals

Feeding and sheltering pets and wildlife.

3 Reading the weather

Using patterns to predict the day and plan ahead.

4 Caring for our world

Recycling and reusing to look after our place.

5 Science every day

Spotting where we observe, predict and care at home and school.
