

Science at Home Every Day

Name: _____

Date: _____

WORKED EXAMPLE

We use science at home every day. We watch or listen to weather forecasts, notice weather patterns, and use what we learn to plan outings and choose the right clothes for the season.

Q1

Circle ways we use weather science: check the forecast, watch the clouds, guess with eyes shut, feel the wind.

Q2

Tick one: On a hot day we wear a warm coat [] or a sun hat [].

Q3

Fill the gap: We watch the _____ forecast to help us plan our day.

Q4

Match: hot, rainy, cold -- coat, hat, umbrella.

Q5

Draw today's weather. Label the clothes you would wear.

Q6

Check tomorrow's weather with your family. Draw what you will wear and one thing you will do.

Q7 CHALLENGE

Write one thing you would do to get ready for a rainy day.
On a rainy day I would: _____
