

Science Inquiry

Learning how scientists work -- asking questions, investigating, recording, and sharing what we find.

Australian Curriculum v9.0 • Year 1

What we'll explore

1 Questioning and predicting

Asking questions and guessing what might happen.

2 Planning and conducting

Following safe steps and making observations.

3 Processing and analysing

Sorting data and looking for patterns.

4 Evaluating

Comparing what we found and checking if it was fair.

5 Communicating

Sharing our findings with words, pictures and models.
